

Cloud based computing services

Does the state of your company's IT give you a headache? You are not alone; creating or upgrading an IT infrastructure may often be derailed due to limited resources, high cost and long implementation times. To ensure a piece of mind and smooth transition, consider cloud computing services provided by Eurofast.

What is cloud computing?

- A metaphor for the Internet. Usually referred to or understood as cloud storage (online storage)
- Variety of digital services accessible via the internet
- No requirement for your company's computers' physical capacity or space

Why do you need cloud based computing?

- Email
- Storing and backing up of information
- Data recovery
- Website hosting
- File sharing
- Data collection for analysis

What are the benefits of cloud computing?

1. Ease of mind on structural construction
2. Substantially lower cost to run and maintain
3. Ability to select performance levels for smoother workflow
4. Scalability and accessibility with easy additional resources and security measures
5. Reliability and capability of automatic backups

Eurofast offers an array of cloud based solutions to cover your business needs. Our range of cloud based services includes:

- **Cloud based storage and backup services:** we offer affordable designated cloud storage. All data is AES-256 encrypted locally prior to upload while backing up and restoring files is effortless, allowing data to be restored seamlessly in the case of a cyber-attack or local data loss.
- **Web hosting Services:** we can host a website of any size and scale and ensure maximum access speed anywhere in the world with the use of our Content Delivery Network. Shared or dedicated hosting are options as well.
- **Virtual Private Servers (VPS):** if you are planning to host a high traffic website, our high-performance VPS with superfast SSD is a much safer and more reliable option.
- **Security and Advisory:** with constant emerging threats, being prepared for any attack can provide 100% uptime.

Whether you are a start-up or a growing company in need of better IT infrastructure, cloud based services are the next step for your organization. Get in touch with a Eurofast representative to find out what type of plan or solution you need.
